Patients To Be Their Own
Primary Care Provider!**

Resistance To Change

**“That it will ever come into general use,
notwithstanding its value, is extremely doubtful
because its beneficial application requires much
time and gives a good bit of trouble, both to the
patient and to the practitioner because its hue
and character are foreign and opposed to all our
habits and associations”**

The London Times, 1834

The subject:

Do not go where the path may lead.

Go instead where there is no path,

And make a trail

Ralph Waldo Emerson
